

# Hatchet By Gary Paulsen

## Brian's Crash

On Brian's flight to his father's home in Canada for the summer of '87, the pilot flying him had a fatal heart attack making him unable to fly and the plane to be crashed. As Brian stays alone in the Canadian wilderness he fights for his life.

## **Hatchet by Gary Paulsen**

Hatchet was published in January of 2003 with 192 pages by Gary Paulsen. This book is full of adventure, danger, and excitement that even you could encounter in the wilderness.

The book is about a 13-year-old boy flying to his father's house in Canada. but during his flight the pilot had a Heart Attack and the plane crashed leaving Brian stranded in the wilderness.

"If you want a book with danger and excitement Hatchet is the book for you" -Skyler Cowman

This book is exciting because you never know what's going to happen next like the plane crash and the pilot's heart attack.

The book has danger that will want you to read more with a bear coming out and after Brian.

I recommend this book because of the amazing story line and mostly for outdoorsy people, and also for all the descriptive details Paulsen put into this book.

## Brian

Brian is a 13-year-old only child, and his parents are divorced. He is a New Yorker, and he loves the outdoors.

Brian knows what to do in a situation, and is a boy scoutish kid because he must be so he can survive in the wilderness. The boy scout in him will help him after the plane crashes.

Brian needs to improvise he is strong, he can overcome the obstacles with his matches and hatchet. The only help he's gotten was a survival pack that was on the plane.

The only way Brian can survive is use his survival skills and not fear the wilderness.

## Brian's Problem

There is a problem for Brian and his mother and father. The plane heading to Brian's father's house crashed after the pilot has a heart attack. This is a problem because Brian has little supplies and he is all alone.

The only way to survive is to hunt, fish, cook, and shelter himself until he is found by someone. The results should be he stays healthy and finds someone and is finally taken home.
